We wish to express our hearty thankfulness for your kind donation to support 'Rainbow Classroom' service project which will benefit many poor school children and poor families.

Our 'Rainbow Classroom' service is one which offers support to academic, physical and moral development for poor school children in the community so that they are not deprived of the opportunity of balanced development because of poverty. This service will enhance their self-improvement and reduce the possibility of poverty generation after generation. It also arouse the society to pay more attention to concern about those poor school children and poor families and to help them to regain their confidence and recognize their values in the society.

Whether or not this project can be carried out successfully depends very much on your kindness and generosity which are highly appreciated by us and by those beneficiaries. It is sincerely hoped that you will be so kind as to continue your support for our service to enable deprived groups in the society benefit from it.

We wish you a prosperous new year!

  
Yours faithfully  
Li Ming Hui
